

COLLAGEN MOUSSE

300mL

To increase activity and maximise results, Collagen Mousse, can be added into any Spicule treatment.

BENEFITS & FEATURES

- Maximises the activity of your spicule treatment
- Strengthens and conditions the skin barrier
- Contains soluble collagen to plump and hydrate
- Increases skin peeling

KEY INGREDIENTS

- **Hydrolysed Collagen** - Collagen peptides for deeper penetration, stimulates collagen production
- **Soluble Collagen** - Larger molecular size, hydrophilic, provides immediate hydration and barrier protection
- **Beta Glucan** - Strengthens skin barrier, soothes and hydrates
- **Fibronectin** - A glyco-protein that encourages wound healing, stimulates fibroblast activity and cellular turnover.

BIO NEEDLING

USAGE RECOMMENDATIONS

SALON USE

Option 1:

After manipulation of **any** spicule treatment is complete, rather than adding water, 2 pumps of Collagen Mousse, can be massaged over the skin (this will increase the sensation for the client, so be aware).

Massage with light circular movements, press - pulling technique for up to 5 minutes.

Option 2 - For Use with VitaSpicule Ultra Treatment:

Can be mixed into the VitaSpicule Ultra Treatment. Mix Spicule Powder 1 with Solution Liquid 2 in a bowl. Then, rather than adding water, add 1 -2 pumps of Collagen Mousse.

For Use with Spongilla Peel

Mix Spongilla Peeling Powder with Solution Liquid in a bowl. Then, rather than adding water, add 1 -2 pumps of Collagen Mousse.
