

# Cold Cream Mousse

*Strengthening cream for delicate skin.*

*Cold Cream Mousse reinforces the natural defenses of damaged or atopic skin.*

An ultra-sensorial cream, its airy and unctuous texture turns into a silky cream when applied to the skin. Its innovative foamy texture melts into the skin leaving a protecting film.

**Sizes:** Sale 50 ml/Professional 150 ml

## About

### Key Ingredients

#### *Squalane.*

Squalane is a multi-functional sebum-like active ingredient of biotechnological origin. It is an exceptional moisturizer that softens and soothes the skin. It helps limit water loss and it restores suppleness and softness to the skin.

#### *Beta Glucan.*

Beta glucan of biotechnological origin, it soothes irritation and strengthens the skin barrier. It relieves discomfort by calming any itching.

#### *Small cushions of modified starch.*

They are gorged with water and give Cold Cream Mousse its foamy and velvety texture.

### Actions

Cold Cream Mousse shields the skin and strengthens it against any external aggressions. Aside from protecting it, Cold Cream Mousse intensely nourishes the skin and helps restore its lipid content to rebalance it.

In addition to acting as an effective protection for the skin, it soothes any sense of tightness and irritation.

## Use

### Conditions

Suitable for fragile skins with atopic tendency that suffers from extreme dryness, irritation, redness, itching or flaking.

### Home Application

It is recommended that you apply Cold Cream Mousse morning and evening to your face, neck and décolletage with light effleurages.

### Salon Use

#### *Activation*

#### *Step #4 of Skin Care Treatment*

Apply with light effleurages to the face, neck and décolletage.
