

Immuno

Regenerating Mask

Epidermis Regenerating Masks

Immuno is the most important mask in the Gernétic method as it supports the regeneration of the basal cells and a healthy turnover of skin cells.

Size: Retail 50 mL/Salon 150 mL

About

Key Ingredients

Kaolin.

Purifying, astringent and toning.

Biological compound rich in amino acids and trace elements.

Plays a role in restoring and regulating the skin functions.

Encourages a healthy turnover of the skin cells.

Amino acids: arginine, lysine, methionine and glutamine.

Nutritive, favour the regeneration of the basal cells.

Actions

Immuno rejuvenates the basal cells, restores and regulates the skin functions making it very effective to slow down the visible signs of the ageing process.

It is also purifying and astringent, which makes it ideal for oily or acne prone skins.

Use

Skin Conditions

Immuno is suitable for all skin types and is to be used on a weekly basis.

Avoid it on inflamed skins such as eczema, psoriasis and rosacea.

In these cases Argini mask is the correct mask to use.

Home Use

Once a week

Can be used as a stand-alone mask or after Mito Special Plus.

Apply all over face and neck and gently massage.

Leave for 10 minutes and remove with water.

Immuno can be used by itself or mixed fifty-fifty with Synchro to enhance rejuvenation.

Salon Use

Step #3 of Skin Care Treatment

After the application of Mito Special Plus, apply Immuno all over face and neck and gently massage in.

Acne treatments:

Mix 1/2 teaspoon Immuno with 1/2 teaspoon Synchro.

Apply all over face and neck and massage in.

Body treatments:

Mix 1/2 teaspoon Immuno with 1/2 teaspoon Synchro and gently massage on scars and stretch marks.

Follow up with other specific creams.
