

Labo.Ger.S - Laboratoires Gernétic Synthèse

Applied Cellular Biology
Great Chemistry

After 25 years of cellular biology research French biologist Albert Laporte established Labo.Ger.S in 1978 with the aim of creating a highly concentrated and highly effective skin care range for beauty and wellbeing.

The results of Gernétic are based on the body's ability to recover its health and harmony when its cells receive active nutritional molecules.

Gernétic's approach to skin care is to deliver the optimal dosage and combination of nutritional molecules such as amino acids, proteins, peptides, bio-peptides, vitamins and trace elements in order to relieve skin conditions, to assist repair and to delay the appearance of the visual signs of the ageing process.

Those nutritional molecules are obtained from Biotechnology and Phytobiology.

Gernétic Skin Care Lines - Brief Description

Cleansing Line

Glyco Cleansing Milk All skin types.	Key ingredients: Glycoproteins and calendula oil. Glyco is perfect to eliminate make up and impurities. It induces a mild dead cells desquamation, encouraging cellular renewal.
Démaquillant Douceur Cleansing Emulsion Younger customers.	Key ingredients: Soft tensio-active agent in micellar emulsion. Extracts from lime blossom, camomille, ginseng and witch hazel. Démaquillant Douceur achieves a deep cleansing of the skin leaving it fresh with comfort.
Derma Liquid Cleanser Oiliness, blackheads, pimples.	Key ingredients: Octanoyl enzyme and peptides. Derma is suitable to use a few times a week for oiliness, pimples, and acne. It reduces sebum secretions and keeps germs at bay.

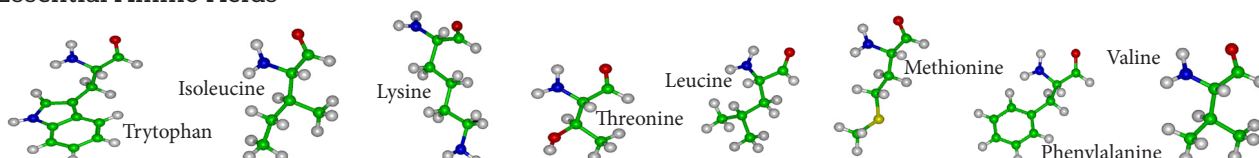

Preparing and Purifying Line

Fibro Preparing Lotion All skin types.	Key ingredients: A complex of amino acids and plant extracts. Fibro completes the cleansing process of Glyco. It re-balances the skin pH. It is also ideal to remove mascara.
Sebo-Ger Purifying Lotion Oiliness, blackheads, pimples.	Key ingredients: Extracts from burdock, watercress and myrrh. Sébo-Ger is very efficient for treating infected and inflamed pimples. It stabilizes the acid mantle and reduces sebum production.

Cleansing and Exfoliating Line

Marine Cleanser Cleansing and Exfoliating Gel All skin types, irritation free. Suitable for mature customers.	Key ingredients: Soft tensio active. Polyolefine microcapsules and extracts of sea sediments rich in trace elements. Marine Cleanser ensures a deep cleanse whilst lifting away the superficial dead cells. The skin becomes smooth and radiant.
Ger-Peel Exfoliating Cream Oiliness and blackheads.	Key ingredients: Polyolefine microcapsules and extracts from cucumber, arnica and elm. Ger-Peel eliminates dead cells, sebaceous secretions and impurities.

Essential Amino Acids

Concentrate Line

Flower Acid
Cells Renewal Concentrate
All irritation free skin.

Key ingredients: A 6% concentration of citric, malic and tartaric acids from frangipani, freesia, hibiscus and lily.
Flower Acid increases the activity of extra-corneocyte enzymes, which accelerates the natural desquamation process.

Mito Special Plus
Cells Energising Concentrate
Irritation free skin.
Ageing and scars.

Key ingredients: Peptides from fibroblasts and tripeptides, glycyl, histidyl and lysine, that are fragments of the collagen chain.
Filtrate with stimulating cellular properties and 8 essential amino acids.
Mito Special Plus increases cellular energy of the epidermis, boosting the regenerating and repairing process of aged and damaged skins.

Eye Contour Line

Eye Gel
Hydrating Refreshing Gel
Dehydration and loss of elasticity.

Key ingredients: Lipo-amino-acid compound associating methionine and lysine with natural lauric acid.
Eye Gel is anti-oxidant, hydrating and refreshing. It counteracts the signs of tiredness, dehydration and ageing of the eye area.

Eye Mask
Decongesting Mask
Puffiness, dark circles

Key ingredients: *Extracts of artichoke and wild chamomile.*
Soothing biological extracts.
Eye Mask improves lymphatic drainage and micro-circulation, which contributes to reducing swelling and dark circles around the eyes.

Epidermis Regenerating Masks

Argini
Soothing Mask
All skin types but particularly for sensitive reactive skins.

Key ingredients: Kaolin, extracts of chamomile, witch hazel, cucumber and sweet almond oil.
Argini is purifying, astringent and toning. It leaves the skin calm and refreshed.

Immuno
Regenerating Mask
All skin types.
Avoid on reactive skins.

Key ingredients: Kaolin and a biological compound rich in amino acids: arginine, lysine, methionine and glutamine and trace elements.
Immuno rejuvenates the basal cells, restores and regulates the skin functions. It is also purifying and astringent.

Vascularising Line

Veinulo Special Plus
Capillary Concentrate
Congestion, capillary fragility and couperose.

Key ingredients: Vitamins B3 and E. A bio-filtrate containing small peptide fragments and a blend of 8 essential amino acids.
Veinulo Special Plus relieves capillary fragility and it optimizes capillary health. It is decongesting, revitalizing and regenerating.

Vasco
Decongesting Cream
Couperosed and congested skin. As well as lifeless skin.

Key ingredients: Phytostimulines from chamomile, St. John's wort, coltsfoot, sage and althea. One compound with vitamins B3 and E.
Vasco allows a better vascularisation of the capillaries and strengthens their walls therefore increasing their elasticity.

Ger-Oxy
Oxygenating Cream
Lifeless skins affected by pollution, also for sensitivity.

Key ingredients: A biological compound rich in amino acids.
Extracts from sage, hypericum, chamomile, yarrow, hops, calendula, arnica and althea. A synergy of vitamins B1, B3, B6, B7, B8, B9 and C.
Ger-Oxy allows a better micro-circulation and oxygenation of the cells.

Purifying Line

Octo Purifying Anti-Blackhead Cream Oiliness and blackheads.	Key ingredients: Essential fatty acids and a synergy of extracts of wild thyme, rosemary, sage, witch hazel, chamomile and yarrow. Octo regulates sebaceous glands, reducing seborrhea.
Mixed and Oily Purifying Anti-Acne Cream Oiliness, blackheads and acne.	Key ingredients: A hydroxyproline-rich lipo-amino and octanoic acid. A compound of myrrh, burdock, plantain and thyme extracts. Mixed and Oily is depurative, antimicrobial and anti-acne.

Toning and Anti-Wrinkles Line

Myo/Myoso Toning and Lifting Cream Sagging of the subcutaneous muscles.	Key ingredients: Biological compound that includes the amino-acids cysteine, methionine, ornithine and leucine and vitamins A, C, H and B. Myo/Myoso promotes the firmness and tone of the subcutaneous muscles and a better elasticity of the connective tissues.
Marine Ger Lift Anti-Wrinkles Cream Signs of fine wrinkles and loss of dermal elasticity.	Key ingredients: Palmitoyl pentapeptide-3 a chain of lysine-threonine-serine. A biological compound rich in vitamins and trace elements. Marine Ger-Lift's nutritive molecules assist the fibroblasts to produce collagen and elastin which restores dermal elasticity.

Epidermis Regenerating Line

Peaux Jeunes Balancing Cream Younger customers with mild imperfections.	Key ingredients: Extract from burdock's root, mallow and watercress. Allantoin. essential oils from myrrh and thyme. Peaux Jeunes controls the production of sebum, reduces dilated pores and keeps the skin hydrated, calm and healthy.
Synchro Regenerating Cream All skin types of all ages.	Key ingredients: Biological compounds rich in glutamine, arginine, lysine and magnesium. Vitamins A, C, E, H and B group. White beeswax. Synchro regenerates the epidermis cells supporting appropriate cells turnover. It is anti-inflammatory, antibacterial and regenerating.
Synchro 2000 Regenerating Cream For people who prefer to wear a lighter-texture than Synchro.	Key ingredients: Biological compounds rich in glutamine, arginine, lysine and magnesium. Vitamins A, C, E, H and B group. Synchro 2000 is regenerating and revitalizing. It restores the skin pH. It has anti-pollution and anti-oxidant properties.
Nucléa Regenerating Repairing Cream Ageing and damaged skin. Wrinkles, scars, pigmentation.	Key ingredients: Biological filtrates rich in proteins, peptides and trace elements. A skin repair factor containing 12 amino acids. Nucléa's exceptional repairing actions stimulate basal cellular activity, which dramatically reduce the depth of wrinkles and scars.
Cytobi Regenerating Soothing Cream Sensitive or inflamed skin of any age.	Key ingredients: A synergy of 5 biological compounds that contain nearly all the essential amino-acids, vitamins and trace elements. Cytobi induces tissue regeneration and revitalization. It has anti-inflammatory, healing and calming properties.

Epidermis and Dermis Serum

Cells-Life Hydrating Revitalizing Serum Dehydrated skin, loss of skin vitality and bounce.	Key ingredients: Several biological compounds based on proteoglycans and hyaluronic acid. Palmitoyl oligopeptide made of 5 amino acids. Cells-Life hydrates and revitalizes the epidermis and dermis thus bringing vitality and bounce to the skin.
---	--

Specific Masks

Hydra-Ger Hydrating Mask Dehydrated skins without sensitivity.	Key ingredients: Kaolin. A hydrophilic protein rich in threonine, tryptophan, cysteine, leucine and lysine. A filtrate rich in peptides. Hydra-Ger allows the basal cells to preserve their moisture, ensuring the hydration of the stratum corneum.
Marine Mask Remineralising Mask Mature skins but has to be avoided on inflamed skins.	Key ingredients: Kaolin. One marine compound containing essential minerals, zinc, copper, cobalt, manganese and potassium. Marine Mask's revitalizing and remineralising properties facilitate cellular reactions, thus eliminating cellular tiredness.

Professional Masks

Marine Essence Mask Powder Seaweeds	Key ingredients: Brown and red seaweeds and essential oils. Draining, decongestant, nutritive and firming.
Vegetal Mask Soothing Nutritive Mask	Key ingredients: Mix of wheat bran, flour, kaolin, lime and lavender. Vegetal Mask is very nutritive and calming.
Mineral Mask Infusing Self Heating Mask	Key ingredients: Natural gypsum. It infuses the active ingredients of the products used during treatments.

Protecting Line

Tropo and Tropo Plus Anti-Allergenic Day Creams Customers under 30.	Key ingredients: Phytostimulines from chamomile, allantoin and wheat germ. Biological extracts. Sun filter SPF 5. Protects against pollution and prevents allergic reactions to make-up.
Symbiose Nutritive Day Cream Mature customers.	Key ingredients: A biological compound rich in amino-acids, vitamins C, E, H and B complex and trace elements. Sun filter SPF 10. Symbiose is an excellent all-in-one nutritive and protective day cream.
Marine Day Remineralising Day Cream Mature customers.	Key ingredients: Marine compound containing zinc, copper, cobalt, manganese, potassium and phosphorus. Sun filter SPF 5. Marine Day cream stimulates biological reactions, boosting skin energy.
Melano III Sun Screen Cream SPF 27+ Sun exposure.	Key ingredients: Biological compounds rich in vitamins and trace elements. Shea butter. Apricot and sweet almond oils. Sun filter. Mélano III brings nutrition and provides maximum protection.

Clarifying Line

Skin Clair Concentrate Depigmenting Serum Pigmentation patches.	Key ingredients: Extracts from white mulberry tree, bearberry, birch, liquorice and grapefruit. Keratolytic enzyme. Gluconic acid. Skin Clair Concentrate reduces melanin production and induces desquamation of tanned superficial cells.
Skin Clair Cream Regenerating Clarifying Pigmentation, complexion.	Key ingredients: A compound of arginine, lysine, histidine, glutamine and leucine. Filtrate rich in peptides and <i>b</i> -lactoglobulin. Skin Clair Cream is designed to lighten pigmentation and complexion.

Men Line

Men Gel Cleansing Purifying Gel	Key ingredients: Stearic acid and glycerol from vegetal sources. Men Gel allows a deeper cleansing of the pores.
After Shave Soothing Balsam	Key ingredients: Synergy of horsetail, chamomile, arnica and calendula. After Shave soothes irritation and redness from shaving.
Hydra Men Nutritive Hydrating Cream	Key ingredients: Numerous amino acids and vegetal extracts. Hydra Men is nutritive and moisturizing. It achieves a healthy look.
Lift Men Toning Anti-Wrinkles Cream	Key ingredients: Compounds of porphyridium cruendun, spirulina and chlorella. A synergy of biological plant providing amino-acids. Lift Men stimulates the fibroblasts, increasing the collagen production.
