Face care

Soothing, anti-aging, plumping and regenerating mask

Retail and professional

Size: Box of 5 sachets

About

Key Ingredients

Calendula & Manchurian Violet help calm and soothe the skin with powerful anti-inflammatory and antioxidant properties.

Vitamin C & Niacinamide (Vitamin B3) support collagen and elastin synthesis, protect against oxidative stress, and help reduce the visible signs of ageing.

Natural Sugars & Amino Acids enhance the skin's natural hydration mechanisms, improving moisture retention, plumpness, and resilience.

Laminaria Japonica & Japanese Yam stimulate cellular regeneration, support tissue repair, and strengthen the skin barrier for renewed vitality.

Elm Extract forms a protective moisture-locking film on the skin while providing antioxidant and soothing benefits to help reduce irritation and strengthen the epidermis.

Aloe Vera delivers intense hydration and comfort, helping to reinforce the skin barrier while reducing dryness, tightness, and sensitivity.

Actions

Cellular Vitality Booster

- Infuses the skin with a concentrated revitalising serum through an advanced biocellulose delivery system.
- Boosts cellular vitality, hydration and skin regeneration.
- Plumps, soothes and strengthens the skin while enhancing radiance and freshness.
- Acts as a second-skin mask to optimise ingredient absorption and efficacy.
- Restores bounce, comfort and luminosity to tired, stressed or ageing skin.
- Suitable for all skin types whenever the skin requires an instant revitalising boost.

Use

Conditions

Suitable for all skin types, it provides an instant boost whenever the skin looks tired, stressed or depleted.

Home Use

Frequency : once a week

- 1 - Cleanse and dry the skin
- 2 - Open the sachet using the easy-tear opening
- 3 - Remove and unfold the mask
- 4 - Remove the first protective film
- 5 - Apply the mask, adjusting around the eyes and mouth
- 6 - Remove the second protective film
- 7 - Leave on for the necessary time (min 10mins)
- 8 - Remove the mask and gently massage the remaining serum

At-home use after a medical-aesthetic procedure:

Apply the Cells Boost mask for 30 minutes to 1 hour, until the skin regains comfort and balance.

Salon Use

Face step #4 Activation

Usage :

- 1 - Cleanse and dry the skin
- 2 - Open the sachet using the easy-tear opening
- 3 - Remove and unfold the mask
- 4 - Remove the first protective film
- 5 - Apply the mask, adjusting around the eyes and mouth
- 6 - Remove the second protective film
- 7 - Leave on for the necessary time
- 8 - Remove the mask and gently massage the remaining serum

*LED can be used over the mask or before application.
