

# MASKS

## Alginate Mask

500g

A setting mask that hydrates soothes and calms the skin whilst creating a smooth texture.

### Active ingredients

#### primary ingredients

- Diatomaceous Earth (Clay base with absorbing & cooling properties)
- Alginate (From seaweeds with protective & anti-pollution properties)

#### secondary ingredients

- Green Tea Extract (Camillia Sinensis) (Anti-oxidant properties protects against harmful effects of free radicals)
- Natural Aromatic Extracts (For a pleasant and uplifting aroma)

### Product benefits

- Provides a cooling and soothing effect on the skin after use of the Bio-Active Complex
- Humectant to improve hydration
- Anti-inflammatory properties reduce erythema
- Improves skin texture and softness

### Application technique

- Add 4 level scoops/100ml (for average face and neck application) of Alginate Mask powder into Nimue rubber mixing bowl
- 1.5 cups/100-120ml of water (at room temperature) mixing continuously
  - Add the first cup of water, then mix rapidly
  - Follow with the slow addition of the second cup
  - Make sure that the consistency is that of thick icing
- Apply quickly in a thick layer to the face (neck optional) leaving the edges thick for easy removal
- Can apply over eyes, brows and lips but leave nostrils open. If client is claustrophobic, leave eyes and mouth open
- Leave on for approximately 10-20 minutes in order for the mask to set
- Using a spatula or fingertips, lift the mask off carefully by removing from the forehead down in one piece, supporting the skin
- Gently wipe away remaining mask particles with damp gauze swabs
- Follow with normal treatment procedure
