

Anti-Ageing Eye Cream

15ml

pH4.5

A soft textured, light feel, highly effective eye cream with skin rejuvenation, anti-ageing and protective properties derived from a complex of high performance ingredients.

Active ingredients

primary ingredients

- Cyclotetrapeptide-24 (maintain skin rejuvenation)
- Geranylgeranylisopropanol (GGP) (maintain skin rejuvenation, anti-ageing, cellular longevity)
- Saccharomyces Cerevisiae Extract, Rhodiola Rosea Root Extract & Sugar Beet Betaine Complex (maintain skin rejuvenation)

secondary ingredients

- Hydrolyzed Natural Yeast & Soy Protein Complex (cellular longevity)
- Filling Spheres - Amorphophallus Konjac Root Powder & Hyaluronic Acid (plumping of wrinkles)
- D-Panthenol (moisturising & anti-inflammatory)

Product benefits

- Improves cellular communication
- Protects telomeres and delays cellular senescence
- Stimulating, energising boost for fatigued skin
- Improves defence against UV
- Densifies the dermis
- Plumping of wrinkles
- Smooths and softens skin
- Both lipidic & water based moisturisation for superior long lasting moisture in the skin and prevention of trans epidermal water loss

Application technique

am and pm

- Apply a small amount to the delicate skin around the eye area after Cleansing Gel and Conditioner can be applied to the upper and lower lid
- Allow to absorb
- Use under prescribed day/night moisturiser
- Approximately half a pump from airless dispenser should be adequate for application around both eyes
- Recommended 2x daily application for optimum results
