

# ACTIVE TREATMENT

## Bio-Active Complex

125ml

pH3.0

The Bio-Active Complex is the Professional Treatment of the 3 Phase system. It is a 15% triple combination alpha hydroxy acid solution buffered to a pH of 3 (golden pH) which is the most effective pH for epidermal and dermal regeneration.

### Active ingredients

#### primary ingredients

- 15% Alpha Hydroxy Acid Complex
- Eucalyptus Oil

### Product benefits

- Skin rejuvenation and renewal
- Optimises penetration of home care ingredients
- Dramatic and visible results in skin rejuvenation
- Optimises and boosts results and treatment duration of Skin Health Programme - works best when done as a course of 6-12 treatments
- Last phase in 3 Phase system

### Application technique

- Ensure the skin is dry before application of Bio-Active Complex to prevent dilution of acids
- Decant approximately 5 ml (adequate for face) into a clean glass bowl
- Apply Bio-Active Complex in a thin even layer over the area to be treated with a dry brush starting on the forehead and working down to the neck
- Apply at corners of eyes in a 45 degree angle to cover crow's feet
- Avoid the upper eyelids, area under the eyebrows and the lips
- Leave on the skin for 3-15 minutes depending on the skin condition and the stage that they are in within their treatment course
