

## Collagen Face Film

10x  
sachets

A soluble hydrogel collagen enriched face film mask to provide an intensive deep hydration, plumping, cooling and tightening effect.

### Active ingredients

#### primary ingredients

- Hydrolyzed Marine Collagen (rejuvenating & hydrating properties)
- Marine Algae Extract (anti-oxidant and hydrating properties)

#### secondary ingredients

- Aloe Barbadensis Leaf Extract (soothing properties)
- Portulaca Oleracea Extract (anti-inflammatory, calming and soothing properties)

### Product benefits

- Improves barrier function, strength and suppleness of the skin
- Protects against the harmful effects of damaging free radicals
- Revitalises, cools and refreshes the skin
- Hydrates the skin resulting in softening of lines and wrinkles
- Provides a cooling and soothing effect on the skin after use of the Bio-Active Complex

### Application technique

- Use during MASK procedure for appropriate treatment
- Remove the two film sections from packaging and place on face for approximately 10-20 minutes for optimum benefit
- Smooth down onto the skin, leaving eyes, nostrils and mouth open
- Remove film sections and discard. Allow excess moisture to be absorbed. Follow with normal treatment procedure

Two Options to enhance benefits of Collagen Face Film

#### Option A:

- Place film sachet [unopened] in luke warm water before application for no longer than 2 minutes to achieve additional stimulation and penetration of ingredients

#### Option B:

- Place film in fridge or cold water for 15 minutes before application for soothing, calming and draining effect
