

# SUPER FLUIDS

## Retinol Super Fluid

30ml

pH5.5 - 6.5

A super concentrated ingredient based fluid for the repair of fine lines, wrinkles and age spots. The Super Fluid is designed to customise the professional treatment to enhance treatment efficacy.

### Active ingredients

- Retinol (improves skin appearance by stimulating cell renewal)

### Product benefits

- Tightens the skin
- Reduces age spots
- Repairs, reduces and prevents the signs of photo ageing
- Promotes collagen and elastin synthesis
- Increases hyaluronic acid content within the skin
- Effective free radical scavenger

### Application technique

- For professional use only.
- Can be used in all Nimue professional treatments (*Please refer to Guidelines for Nimue Super Fluid application\**)
- No more than 2 Nimue Super Fluids to be used per treatment (maximum 4ml in total)
- Should 2 Super Fluids be chosen, the main Super Fluid will focus on the client's primary concern
- It is recommended to use the appropriate Nimue-TDS™ in a Nimue professional treatment with Super Fluids to enhance treatment efficacy
- It is advised to perform at least 4 Nimue professional treatments with the same selected Super Fluid/s to maintain consistency and enhance treatment efficacy
