ThermoFlash Peel

30ml

pH3.5

A rapid resurfacing flash DIY treatment with thermal technology for homecare use. The ThermoFlash Peel delivers instant results and can be applied when an enhanced skin radiance or exfoliation boost is needed. Ideal to be used before a special occasion or for when the skin requires improved firmness and immediate smoothness of the skin texture.

Active ingredients

primary ingredients

- Warming Agent (Thermal Ether) (increases oxygen and nutrient supply, warming)
- Sorghum Bicolor Stalk Juice (immediate tightening)
- Salicylic Acid (oil-soluble BHA providing exfoliation)

secondary ingredients

- Kaolin (astringent and cleansing)
- Glycolic Acid (exfoliation and renewal)
- Sodium Lactate (moisturisation)
- Phytosterols (soothing, anti-inflammatory and barrier strengthening)

Product benefits

- Delivers visible results in 10 minutes
- Resurfaces the skin, removing dead skin cells
- Deep cleanses and detoxifies
- Tightens and firms the skin
- Reduces appearance of fine lines and wrinkles
- Thermal action increases skin circulation and oxygenation
- Moisturises the skin, creating a radiant, glowing and smooth appearance
- Soothes and repairs the skin barrier
- Improves dull, lifeless skin

Application technique

pm only

- Use once a week only
- After Nimue Cleansing Gel and Nimue Conditioner, apply a thin, even layer of mask to the face and neck with a mask brush
- Avoid the delicate eye area
- Leave on the skin for 10 minutes. Do not exceed the recommended treatment time
- Remove with damp cotton pads and cleanse treatment area with Nimue Cleansing Gel
- A mild, transient tingling or temporary redness may occur
- Do not use on easily irritated or sensitive skin
- Follow with normal skincare regime
- Use only once Phase 2 has been introduced
- Do not use Nimue Active Lotion/Active Gel or Nimue Active Resurfacing Wipes on the same evening as ThermoFlash Peel
- **Do not use on clients allergic to aspirin**
