

Active Resurfacing Wipes

NEW!

A solution for targeted, powerful skin rejuvenation.

These convenient wipes contain the Triple Alpha Hydroxy Acid Complex as well as soothing, rebuilding actives Panthenol (Vitamin B5) and Allantoin that condition the skin.

Key Benefits:

- Accelerates cell renewal
- Resurfacing and refinement of the skin texture
- Soothes and repairs the skin barrier
- Reduces oiliness and breakouts
- Promotes an even skin tone
- Improves a dull, lifeless skin
- Provides a smoother, hydrated and revitalized skin
- Creates a radiant and glowing appearance

KEY INGREDIENTS

- **Glycolic Acid**
 - Boosts cell turnover and normalises keratinisation
- **Lactic Acid**
 - Hydrates the skin, boosting the skin's natural moisturising factor
 - Smooths the skin
