Active Ingredients:

**Cyclotetrapeptide**

Improvement firmness & elasticity.

**GGP**

Improves cellular communication and fights against free radicals.

**Filling spheres**

Plumps and smoothes the skin's surface.

Application:

This versatile eye cream should be applied am and pm, on the top lid and under eye area, as well as on any crow's feet.

Client's statement:

My main concern is ageing around my eye area. I battle with crow's feet, fine lines and dehydration around my eyes.

The Nimue solution:

The Anti-Ageing eye cream is a light textured eye cream with high performance actives and advanced peptides that firm and rejuvenate, working on fine lines and wrinkles. It fights under eye fatigue and reduces puffiness.
