The Ingredients

Lindera strychnifolia Root Extract | Improves skin elasticity by stimulating fibroblasts
Extracts of organic sprouts | Boosts micro circulation
Stabilised papain | Exfoliating effect
Cyclotetrapeptide-24 | Skin firmness: stimulates the stability of the extracellular matrix of the dermis
GGP | Keeps cells younger for longer.
Protective action against free radicals which can affect the telomeres and mitochondria

Key Benefits

This mask combines a synergy of ingredients that work on improving the health and functioning of the collagen and elastin cells in the dermal layer.

Selling Tip

It is also excellent for a dull skin as the exfoliating action of the stabilised papain, together with the improvement in microcirculation, will improve the texture and radiance of the skin.

Anti-Ageing
