## Expert tips

Rejuvenation and renewal treatment which optimises penetration of home care ingredients

Works best when done as a course of 6-12 treatments

Do not touch the product once it has been applied to the skin. Use a hand held fan to alleviate any tingling

Must be neutralised with Nimue Neutraliser/ Neutraliser Plus

Do not exceed recommended treatment time

Apply in the correct application technique according to the Nimue treatment protocol

Nimue's unique Triple AHA complex, at a specific concentration and strength, will leave the skin feeling soft and glowing.

- 15% Triple AHA Complex (Glycolic acid, Lactic acid, Citric Acid)
- pH 3.0
- Eucalyptus has been added for additional anti-inflammatory and anti-bacterial properties

## Rejuvenation!

Phase 3 Professional treatment product formulated to create maximum stimulation with minimal irritation.

Formulated with Nimue's golden pH, a pH of 3 - the ideal pH for epidermal and dermal rejuvenation.
