SKIN TECHNOLOGY

The Nimue Solution

Nimue Day Fader Plus contains a higher concentration of emulsifiers when compared to Nimue Day Fader.

This results in a richer base suitable for clients who require a more nourishing effect, whilst still treating hyperpigmentation, dull complexion and redness

Client Statement

My main concern is my uneven skin complexion, irregular redness and hyperpigmentation. My skin is dry and dehydrated and I prefer a nourishing day cream.

Primary Actives

Octadecenedioic Acid - inhibits melanogenesis

Palmitoyl Sh-Tripeptide-5 Norisoleucyl Sh-Nonapeptide-1, Palmitoyl Sh- Octapeptide-24

Amide - brightens & increases radiance

Diglucoyl Gallic Acid - evens out skin colour

Polarised Water - even delivery and distribution of actives

Secondary Actives

Magnesium Ascorbyl Phosphate - brightens

Nicotinamide - reduces discolouration

Physalis Angulata Extract - protects against thermal ageing

New Nimue Day Fader Plus
