

education tip jar

The Ingredients

- Vit C L-Ascorbic Acid- Stimulates collagen synthesis; tyrosinase inhibitor
- Palmitoyl Tri peptide-3- Stimulates collagen synthesis
- Multi Mineral Complex (Magnesium aspartate, Zinc gluconate, copper gluconate)- Stimulates cellular energy, improving cell performance

Key Benefits

Dual Focus Serum

- Aging
Multi Rejuvenating Serum targets lines and wrinkles by increasing the skins collagen production, smoothing out wrinkles and slowing down the formation of new lines.
Improves cell functioning by protecting cellular DNA and stimulating cellular energy.
- Hyperpigmentation
Vitamin C L-Ascorbic Acid work as a tyrosinase inhibitor by helping to regulate the amount of pigment (melanin) the skin produces, leading to a more even skin tone.

Indications

Multi Rejuvenating Serum is excellent for anyone concerned with ageing and pigmentation. The ingredients assist in treating these concerns and may also help to prevent premature ageing symptoms such as fine lines and wrinkles.
