

education tip jar

Key actives:

- Glycolic Acid
- Lactic Acid
- Pyruvic Acid
- Mandelic Acid
- Citric Acid

The Polarised Water delivery system is used to ensure the even distribution and penetration of actives, allowing for an even result, with ingredients being released into the cell's core.

Nimue-SRC™ Environmentally Damaged is to be applied using a clean, dry brush

Nimue-SRC™ Environmentally Damaged may be seen as Nimue's anti-ageing peel.

It reduces fine lines and wrinkles, smooths the skin, improves the texture and reduces sun spots.
