REPLENISHING RESCUE CREAM | 50ML

A rich cream to assist in controlling very dry and flaky skin, a compromised skin barrier and eczema skin conditions on the face and neck, providing comfort, relief and nourishment. It is suitable for immediate and long-term comfort and relief and assists in reducing flare-ups and the duration between flare-ups.

INDICATIONS

- Eczema
- Dry and very dry skin
- Cracked and flaky skin
- Sensitised and irritated skin
- Signs of a compromised skin barrier

BENEFITS

- Intense nourishing and hydrating cream with a lightweight feel
- Non-greasy
- Rebalances the skin immune system
- Soothes a sensitised, inflamed and irritated skin
- Repairs and protects the skin barrier
- Anti-oxidant, anti-inflammatory and anti-irritation benefits

KEY INGREDIENTS

- Barrier Lipid Complex (*Repairs and protects the skin barrier and increases skin moisturisation. Soothes and reduces irritation*)
- Saccharide Isomerate (*Instant and deep hydration*)
- Niacinamide (*Prevents PIHP and repairs DNA*)
- Glycyrrhetic Acid (*Controls redness and soothes a sensitised skin*)

DIRECTIONS FOR USE

REPLENISHING RESCUE CREAM

Homecare use

Face and neck and décolleté

2 Pumps minimum

Usage guideline

Area

10x10cm

Pumps

2 pump minimum

- Apply a small amount to the dry, affected area after cleansing
- Massage into the skin
- Follow with SPF (AM) if used on the face
- Apply 3 times daily, or as required
- Suitable for face, neck and décolleté and small, localised areas on the body
- It is recommended that MD Replenishing Rescue Cream be used on its own for optimal results
