

**SNOW BALM EXFOLIATOR - 150G**

*Gentle spicule exfoliation*  
**Not suitable for oily or acne-prone skin**  
**Spicule length: 200um**  
**2 million spicules per treatment**

**PRODUCT OVERVIEW**

VitaSpicule Snow Balm Exfoliator is a first-to-market oil-based spicule exfoliating treatment designed to enhance skin smoothness, radiance and refinement without the use of acids.

This luxurious creamy balm combines gentle bio-spicule exfoliation with nourishing botanical oils and is ideal for any skin type before any facial treatment. **Not to be used alongside other Spicule treatments.**

**FEATURES & BENEFITS**

- First-to-market oil-based spicule exfoliator combining skin resurfacing with deep nourishment
- Provides gentle, acid-free exfoliation to refine skin texture and boost radiance
- Creamy balm texture allows an extended massage experience while maintaining skin comfort
- Supports smoother, softer and brighter-looking skin without excessive dryness or stripping
- Enriched with botanical oils, antioxidants and niacinamide to help hydrate and condition the skin
- Ideal as a weekly professional exfoliation treatment and suitable for most facial protocols except for on oily or acne-prone skins.

**KEY INGREDIENTS**

- **Hydrolysed Sponge (Spicules)** – supports skin renewal and gentle mechanical exfoliation
- **Avocado Butter** – deeply nourishes and helps maintain skin hydration
- **Meadowfoam Seed Oil** – supports barrier protection and skin softness
- **Niacinamide** – brightens, refines and supports overall skin health
- **Fomes Officinalis (Mushroom) Extract** – helps refine pores and smooth skin texture
- **Neroli Oil** – antioxidant-rich and calming to the skin
- **Grapefruit Peel Oil** – helps revitalise and refresh dull skin
- **Jasmine Extract** – soothing and conditioning for skin comfort
- **Green Tea Extract** – provides antioxidant protection against environmental stress
- **Vitamin E** – helps protect and nourish the skin barrier

# BIO NEEDLING

## USAGE RECOMMENDATIONS

### SALON USE

- Ideal as the exfoliation step within any professional facial treatment
- Suitable for weekly treatments
- Can be used alongside LED.
- Suitable for most skin types excluding oily and acne-prone skins
- Not recommended alongside other spicule or intensive resurfacing treatments
- Avoid use immediately after peels, hair removal, laser or aggressive exfoliation procedures
- Do not use around the eyes

### TREATMENT PROTOCOL

- Remove makeup and cleanse the skin thoroughly
- Soften the skin with a warm, damp towel compress for 30-60 seconds
- Apply approx. 5 ml of Snow Balm Exfoliator by evenly dotting over the face, neck and décolletage.
- Massage gently for up to 5 minutes, avoiding excessive pressure on neck and décolletage.
- Remove thoroughly with a warm, damp towel compress or fibrella.
- Either continue with your chosen facial treatment (not spicule based) or follow with a hydrating or calming mask such as SpongillaTech SOS Calming Mask or Ice Calming Mask.
- Complete treatment with finishing skincare and SPF

### POST-TREATMENT ADVICE

- Mild redness, warmth or tingling may occur temporarily
- Hydration and barrier-support products are recommended post-treatment
- Daily SPF is essential
- Avoid excessive heat for next 12 hours

### PROFESSIONAL NOTE

This product contains natural freshwater sponge spicules designed to stimulate superficial skin renewal through gentle mechanical exfoliation. It is intended for professional salon use only.
