

New Skin Repair Gel

Professional Skin Repair after skin rejuvenation

Product Introduction:

New Skin Repair Gel is a kind of professional skin repair products both for salon and home. It contains kinds of peptides and herbal extracts with function of anti-inflammation and discomforts relief, and It also helps to form a protective layer on the skin surface to lock water and insulate skin from stimulation outside. It's suggested to use at the first 3 days for skin calming and repairing after skin rejuvenation treatment.

Product Details

Disposable packing: 10ml

Standard packing: 50ml

Ingredients:

Aqua, Rosa Rugosa Flower Extract, Glycerin, Butylene Glycol, Ectoin, Paeonia Albiflora Root Extract, Piper Methysticum Root Extract, Copper Tripeptide-1, Hyaluronic Acid, Ethylhexylglycerin, Phenoxyethanol, Carbomer, Croscarmellose, Triethanolamine, Menthyl Lactate, Disodium EDTA.

How it works:

Copper Tripeptide-1

Anti-inflammation and wound healing promotion

1. Let immune cells and endothelial cells reach the damaged part and strengthen wound healing;
2. Inhibit inflammation by reducing the level of inflammatory cytokines in the acute phase

Piper Methysticum Root Extract

Skin calming and relieving

1. inhibit nerve excitation (inhibit the expression of TRPV1 protein)
2. block nerve conduction after excitation (inhibit action potential)

Through two points above, it can prevent skin discomforts such as burning, pain and itching.

Paeonia Albiflora Root Extract

Redness reducing and anti-allergy

Prevent the release of histamine in the body and prevent skin allergy, redness and itching

Ectoin

To form a hydration protective film and repair skin

1. Reduce the water loss by restoring and adjusting the moisture content of the skin, and form a protection film to improve skin hydrating;
2. Calm and relief the fragile and irritated skin

Before and After:

How to Use?

Use at salon:

1. Do thick coating on skin for 15-20 minutes, then use ice hammer to do cooling for the whole face, or do thick coating on skin, then use a hydrating facial mask film for 15-20 minutes.
2. Use at the last step for skin rejuvenation.
