

BIO NEEDLING

VITASPICULE BOOST

10g/Syringe

1 million bio-needles per treatment

Spicule length: 200um

MICRO

STRONGER, DEEPER ACTION AT HOME

- Works deeper in the skin for intensive stimulation and renewal
- Speeds up cell turnover for faster, visible results
- Delivers a stronger resurfacing effect with minimal downtime
- Highly effective for acne, congestion, pigmentation, and signs of ageing
- Not suitable for sensitive skins — designed for stronger skins seeking a deeper peeling action
- Boosts active ingredient absorption by up to 30×
- Maintains and enhances results from professional treatments
- Hydrates, calms, and strengthens the skin barrier

KEY INGREDIENTS

- **Hydrolysed Sponge spicules** - Aids skin regeneration & ingredient delivery
- **Glycerin** - strengthens skin barrier, prevents trans epidermal water loss
- **Shea butter** - nourishes, softens and hydrates
- **Fomes Officinalis Extract (Mushroom)** - Moisturising, improves skin tone and firmness, anti-inflammatory, soothes and calms
- **Meadowfoam Seed Oil** - hydrating, reduces appearance of fine lines, scars and wrinkles
- **Castor Oil** - Hydration, softens the skin,
- **Sphingomonas Ferment**: Skin Conditioning

BIO NEEDLING

USAGE RECOMMENDATIONS

RETAIL USE - Once every 2 weeks - Not for sensitive skin

1. Cleanse the skin with a mild cleanser.
2. Apply 1 pump (peppercorn-sized amount, equivalent to 1 million spicules) to the skin.
3. Add a small amount of water to fingertips and mix to create a smooth paste.
4. Massage over the skin using damp fingertips in circular motions for up to 5 minutes.
5. Rinse thoroughly with cool water.
6. Optional: Apply a soothing, hydrating mask for 15 minutes, then remove with a wet towel.
7. Finish with a gentle moisturiser. No AHA, BHA, or Retinol for 7 days after use (or 3 days prior).
